

# | ENHANCED F GEN II

## HIGHLY VERSATILE SEMI-AUTOMATIC PISTOL

The 9 X 19 MM K-TECH Enhanced F Gen II Semi-automatic pistol launched in 2021. Gen II went through a rigorous development programme to deliver the most competitive pistol to the end-user. The new pistol comes with a completely new integrated solid slide, an enhanced trigger with improved performance and the adaptation of a MIL-SPEC picatinny rail (MIL-STD-1913) to allow the attachment of multiple accessories. A modified slide offering the ability to add advanced optics (like reflex sights) is available factory-made.

Gen II has been extensively tested in the harshest conditions to meet recognised standards. It carries a high-capacity 18-round magazine and retains the unique low bore axis found on previous K-TECH pistols.

# SPECIFICATIONS

SPECIFICATIONS	K-TECH ENHANCED F GEN II
Calibre	9x19
Slide length	178.5mm
Barrel length	105mm
Height	135mm
